

usefulvision **Useful Vision Grant Scheme**

Useful Vision offers a grant scheme. Typically these can be used for equipment that is not provided by the state, or to help with the costs of a new hobby, music lessons, computer programmes, etc.

This can be for visually impaired children or their siblings as they are often forgotten. We try to make sure that the whole family benefits from the events and grants offered by the charity.

UV has a limited budget means that each application needs to be assessed by the UV Committee.

If you have a genuine need, contact UV directly for an application form
